Write a review about the show "On my Way" by the Pickles company

This theatre play , was amazing and so funny , the actors were great , in particular we love Ted because he was so hilarious..It was a little bit too fast , Nora was very cute ! The story was dynamic.. LEA LENA OCéane

The actors were very hilarious, they were very expressive but sometimes they spoke too fast and Brad played the guitar very well. We liked it when Billie went to Seamus's house and the moment with military music. I particularly liked it when Deniz sang Galileo. The favourite character of Elliott and Paul was Ted because he was very funny and the favourite character of Marie was Brad because she finds him very strong.

It's the story of Billy, her best friend and Brad. Billy's parents, are Franck and Patricia. She goes to cinema with her best friend and Brad. He talks to her about his road trip in Ireland, but Brad didn't want to go with her and she stays alone on the coast. She is hitchhiking and he man takes her in his car. This man is Seamus he's Irish and he lives in a traditional house.He gives determination to Bill to finish the 1,600 miles, and after he finishes Brad was impressed.

### Our review

These professional actors are really talented. Their acting skills are really good. They form an amazing team. They each have a good role to play. Ted is very hilarious, he adds a good atmosphere. The story is exciting. Billie is often alone  
The costumes are original.

The show "On my Way" was a really good moment, the actors played well, they are very talented. The props were good, the costumes too. Adding students was very good, and that made the show more interactive. The show was funny because we don't see that every day. And for the students who played with the actors they said it was a good experience. We want more pickles theatre company shows!

The review of Ambre, Manon and Léa H.

The theatre play "On My Way" was played on 11th December. Some pupils were watching and others were participating. Let's make a review. The play wasn't boring because it was dynamic, funny with those actors. The audience felt like they were a part of the play, because the actors let them participate. The confirmation, to say that it was dynamic, is that the professional actors were changing their clothes many times and it was very hilarious. One actor was able to play different roles and it was really nice to see that.

Review from Cécile and Gabriel

We have seen a play from Pickles theater company today morning. There were 4 characters in this play : Billy, Nora, Brad and Ted. At the beginning it was really funny

First, all was well organised. The actors were prepared. They had good timing. They articulated and all of their speeches were very clear. They used a lot of props such as : a bag, a map, a guitar... There were 4 characters on stage: 2 men and 2 women.

### The review of the play

The play was good. We loved it, it was very funny, the actors played very well.

It was a good idea to use the audience, this makes it funnier.

The audience is more attentive when the actors make them participate.

Because we knew the story, it was easier to understand.

The actors were young and dynamic.

They used gestures, it helped us to understand the feelings when we didn't understand the words.

Finally, we appreciated this play because this was simple to understand and this wasn't too serious.

We think this theatre play was interesting and funny.

We have understood some words and learnt a lot of vocabulary, that was funny and expressive.

The actors were good and hilarious, the accessories were fine and really amusing.

We loved the choir and the music, and the actors played very well.

The participation of the audience was a good idea because it was funny. But sometimes, we had the impression that it was too long because we didn't understand all the sentences.

Lucie Marie et Célia

The good points were that the red-haired man was very hilarious. There were a lot of props. The tone of the actors was very good. It was very interactive. We enjoyed watching the play and we also liked the actors. The negative points were that we didn't understand everything. The light was sometimes disturbing. To conclude the play was very interesting.

FRITSCH Romuald  
Warth Nathan  
TRAU Valentino

The play was good, funny and hilarious . The actors were good and amazing. They were very expressive . On the stage the characters had a lot of props . The play was good because the characters interacted a lot with the audience. It was very interesting to meet people who were native speakers.

Hugo S Léa P et Anisa W

The play was very good and was interesting with only 4 actors and 7 pupils who played some parts of play. It was good because it was a mix of theatre, some singing parts and some dancing. The plot was very important but not too complicated to understand. There were some props like a wig, a scarf etc.

Our experience was very good, it was a very enriching experience.

### The review of the play

We think that it was a good and interesting play. The actors were funny and hilarious. They spoke loud enough. They were very expressive. The actors made the audience participate. There were a lot of props. The costumes were amusing. The plot was fascinating and captivating. They played and sang very well. This play was simple to understand.

By Amandine Goerger, Lisa-Marie Hoeffel, Marie Kalt

The theatre play was very funny because the actors are cool and the story was very good. The costumes were not serious because the characters dressed with different costumes. The scenario was good and the actors were communicative. The actors sang in the play.

Eliott Clément Léon

Monday 11th December 2017, we saw a show by the Pickles company. It was very funny and hilarious. The actors and the students played very well, they used the right tone. This was a very good experience because we enjoyed the play.
