Recap:
It was a story with the red family and the green family, saorla red and Sean are together but Sean green is the enemy of the brother of saorla. Which creates problems in both families.
My impression:
I find this play very funny, the actors are talented. With a lot of hilarious scene but at times I did not understand all the text.

Love story
The plot is about a forbidden love between Sean Green and Saola Red, they love them but their family can't accept this relation because the two clan (the reds and the greens) were enemies. But the two people are very in love of each other, and the brother of Saola can't accept this. Saola and his brother play rock, scissors, paper to decide if Saola can love Sean or if she have to go in travel with Phineas, the crazy best friend of Saola's brother, and it was Saola's brother who won. But Saola decide to be with Sean without the accord of his family. The play finish with two different end : in the first end, saola's brother kills her because he can't accept this love story. In the second end Phineas kill Saola's brother by mistake and Saola and Sean get married and have a girl who falls in love with a blue (a new clan).

RECAP:
The story told in this play is the story of two families who are enemies. But one day a concert takes place in her city and two characters fall in love: Sean Green and Saola Red. At the beginning the two lovers are separate by the family because the brother of Saola hate Sean. But finally, Saola decide to disobey her brother and drop Phineas to search her only love, Sean. She find her and years later their become a little girl who fall in love with a blue.
IMPRESSION:
The play was very good. The actors were excellent because each of them play two different characters and this is very difficult. The staging is great two because they were active with the audience and very active. The costumes were basic and they not a lot of props but it wasn't shocking.

The plot is about two families who are enemies, in Dublin in 21st century, and two members fall in love at a concert, but like Romeo and Juliett, this love is IMPOSSIBLE ! The girl and the man will try all the play to go out together. But their families don't want this to happen, they wan't someone else for the girl, a member of her family ! They will try everything to stop this impossible love ! But, when the girl and the red married and had a girl, a boy of the Blue came and go out with the daughter of the Red and the Green. Tristan's opinion : I think this play was good and bad at the same time because, the actor's were good, young and funny but they were no props ! They made everything in the air, it had a funny side but it was sad. Hugo's opinions : Generally, I don't like theatre very much, i think it's boring. But this time, I think this play was good because there was an excellent staging. It was an lively play, they always was something happened ! The plot was good, very interesting. The only missing point were the props who was missing. For me, it's a 17 / 20 because it was very funny too.

The play is a modern version of Romeo and Juliet. The Reds and the Greens are rival families. Sean is a Red and Saorla is a Green. Throughout the play, Saorla and Sean fall in love. No one knows until the day, Sean's sister catches them blooming. From that moment on, the scandal was exposed and the two family tried to prevent this union. At the end, the two families reconcile and Sean's red can marry with Saorla's Green. I liked this play because at times, it was funny and fun despite the fact that I didn't understand some of the moments in the play.
